

## Questions About Your Answers on the N-400 Form Asked by the Immigration & Naturalization Service

This is a sample version of the citizenship test. The interview will usually last about 20 minutes, but sometimes it can last up to an hour. There is very little reading and writing. The interviewer can ask the applicant to define any word used in a question and may ask questions to check English comprehension. Applicants can ask the interviewer to repeat or rephrase any question.
